2:56 p.m. Sometimes all you need is gravity to cause the Dow Jones Industrial Average to crater.

There certainly aren't any headlines that would explain the market's losses. The Dow has fallen 453.23 points, or 1.9%, to 23,647.28, while the S&P 500 has dropped 1.9% to 2551.77 and the Nasdaq Composite has slumped 2% to 6774.02.

"U.S. equities continued to slide, the **S&P500** down 1.4% to the lowest level since April (and down 13% since October), with no major fresh news out overnight," was how Westpac Financial's Imre Speizer and team described the losses to their clients.

But if it's not every single headline, it might be, perhaps, a bunch of them. Goldman Sachs (GS) was charged by Malaysia in the 1MDB scandal; a Texas judge's decision to find the Affordable Care Act unconstitutional has helped knock down the Health Care Select Sector SPDR ETF (XLV), which had been one of the market's last refuges; and the Energy Select Sector SPDR ETF (XLE) has slumped along with the price of oil.

And then there are the market technicals, which just keep getting worse. The S&P 500 looks set to close below February and April lows, areas that investors were hoping could act as support. In fact, the S&P 500 looks set to close at its lowest level since Oct. 2017. And more than half the stocks in the index are in a bear market, a sign of just how widespread the pain has been.

Falling objects always come to rest once they hit the ground. It's just hard to see where the ground is right now.

Write to Ben Levisohn at Ben.Levisohn@barrons.com

ForeScout Takes the ParityPledge as Part of Its Commitment to Improving the Pathway for Women in Leadership Positions

SAN JOSE, Calif., Dec. 10, 2018 (GLOBE NEWSWIRE) -- ForeScout Technologies, Inc . (NASDAQ:FSCT), a leading Internet of Things (IoT) security company, today announced it has taken the ParityPledge(TM) , building on its commitment to improving the pathway for women in leadership positions. The ParityPledge simply asks that companies commit to interviewing at least one qualified woman candidate for every open position, vice president and above, including the C-suite and board. No quotas. No deadlines. The ParityPledge is an initiative of Parity.org, a 501(c)(3) non-profit organization focused on bringing gender equality to the highest levels of business.

"Diversity and inclusion are fundamental to our company culture at ForeScout , " said Michael DeCesare , CEO and President, ForeScout . "We are committed to providing career-advancing opportunities for women at all levels. Women are critical to business success, especially in leadership positions."

"Parity.org was founded to correct the stark reality of gender imbalance at the very top of companies today," said Cathrin Stickney, Parity.org founder and CEO. "While women represent 51 percent of the population, barely 20 percent of **S&P500** corporate executive teams and boards are represented by women. We are thankful for organizations like ForeScout that are willing to become a role model for change. We believe their public commitment and example will help us realize exponential progress toward reaching parity at the top."

Organizations wanting to take the ParityPledge or learn more about how to get involved with Parity.org should visit <http://www.Parity.org> .

"We're tapping into an issue that so many companies are trying to get right. While much progress has been made at lower levels of organizations, the very top has remained elusive," said Stickney. "We welcome all organizations -- both big and small -- that recognize the importance and benefits of a representative slate: a slate of candidates that reflects the population."

About Parity.org

Parity.org is a 501(c)(3) non-profit organization dedicated to gender equality at the highest ranks of business leadership. You can follow Parity.org on Facebook , LinkedIn Twitter, and Instagram .

About ForeScout :

ForeScout Technologies, Inc . helps make the invisible visible. Our company focuses on providing Global 2000 enterprises and government agencies with agentless visibility and control of traditional and IoT devices the instant they connect to the network. Our technology integrates with disparate security tools to help organizations accelerate incident response, break down silos, automate workflows and optimize existing investments. 13Ds are filed with the Securities and Exchange Commission within 10 days of an entity's attaining a greater than 5% position in any class of a company's securities. Subsequent changes in holdings or intentions must be reported in amended filings. This material has been extracted from filings released by the SEC from November 29 through December 3. Source: InsiderScore.com

## Increases in Holdings

### DHX Media (DHXM)

Fine Capital Partners raised its position in the children's video content distributor to 36,532,550 shares. Its current 27.2% stake resulted from the acquisition of 2,026,300 shares from Nov. 21 to Nov. 29 at prices ranging from \$2.34 to \$2.61.

It was disclosed that a Fine Capital portfolio manager serves on the DHXM board, and that Fine Capital has been in discussions with the company and may extend the talks, but no specific plans or proposals have been revealed.

### PDF Solutions (PDFS)

VIEX Capital increased its stake in the electronics and software firm to 2,414,057 shares, or 7.5% of the outstanding stock, including 730,000 shares underlying exercisable options. VIEX's increased position resulted from the acquisition of 317,761 shares at prices ranging from \$8.52 to \$9.01 from Nov. 26 through Nov. 30, excluding options transactions.

VIEX initially disclosed a 6% stake in mid-November.

### Rowan Cos. (RDC)

Canyon Capital Advisors lifted its holding to 9,040,178 ordinary shares, or 7.1% of the outstanding stock, including 1,000,000 underlying exercisable options. The higher stake resulted from the purchase of 1,401,500 shares of the oil and gas driller at prices ranging from \$14.02 to \$14.78 from Nov. 20 through Nov. 28.

Canyon first revealed a 6% stake last month, and further argued that the proposed \$2.38 billion acquisition of Rowan by U.K.-based Ensco (ESV) wasn't fairly valued. Canyon said that it planned to discuss the merger with RDC, but no update was provided in the latest disclosure.

## Decreases in Holdings

### Citrix Systems (CTXS)

Elliott Management has lowered its position to 9,263,892 shares, or 6.9%, of the outstanding stock of the enterprise virtualization technology firm. The reduced stake resulted from the sale of 1,000,000 shares on Nov. 29 at \$111.15 each, executed for "year-end tax planning and portfolio management purposes."

Elliott added that it "intend[s] to remain a significant shareholder" in Citrix and that its representative, Jesse Cohn, will remain a CTXS director.

### Genomic Health (GHDX)

Baker Brothers Advisors sold 458,169 shares of the cancer screen designer during the span from Nov. 29 and Dec. 3. The sales were executed at prices that ranged from \$76.62 to \$80.18. The transactions cut BakerBrothers' position to 12,380,267 shares, including 149,030 underlying options.

Baker Brothers also disclosed earlier sales last week that had totaled approximately 516,100 shares. Combined with the latest activity, that impacted its stake only slightly, since Baker Brothers still owns 34.1% of the company, down from a previously reported 35.4%.

#### Baxter International (BAX)

Third Point sold 8,000,000 shares of the medical device and equipment maker, reducing its holding to 28,008,125 shares. The sale was executed as a block trade on Dec. 3 at \$68.62 per share and trimmed Third Point's stake to 5.3%.

Third Point further stated that the sale was "a result of the portfolio concentration level" in BAX and that it doesn't "currently contemplate further sales for at least 90 days," barring unexpected events. Third Point concluded that it is "pleased with the performance of [Baxter's] CEO and is confident in his ability to continue to create value for shareholders."

#### Esterline Technologies (ESL)

First Pacific Advisors (142:Hong Kong) after disclosing the divestment of nearly 457,000 shares recently, followed with the sale of an additional 562,256 shares from Nov. 27 through Dec. 3. The sales were executed at per-share prices ranging from \$117.59 to \$121.60. They have reduced First Pacific's holding of the avionics manufacturer to 1,533,017 shares, equal to 5.2% of the outstanding stock.

No reason was given for the sales, and First Pacific reiterated that it might have future discussions with Esterline covering any number of business topics.

#### Tootsie Roll Industries (TR)

Gamco (GBL) revealed owning 1,685,672 shares of the candy maker, a lowered holding equal to 4.4% of the tradable stock. The smaller position resulted from the sale of 79,732 shares at \$28.66 to \$35.70 apiece and the purchase of 1,100 at \$34.90 to \$35.55 per share, all from Oct. 5 through Nov. 28.

#### Essendant (ESND)

Pzena Investment Mgmt (PZENA) lowered its stake in the wholesale distributor of office supplies to 3,902,688 shares, or 10.4% of the tradable stock. The reduced position resulted from the sale of 588,266 shares from Nov. 1 through Nov. 30, at \$12.66 to \$12.72 per share.

#### Skyline Champion Corp. (SKY)

Centerbridge Capital Partners sold 1,750,000 shares of the residential home construction firm through a secondary block trade offering that closed on Nov. 30. The offering was executed at \$21.80 per share and reduced Centerbridge's stake by slightly more than a quarter, to 8.4% of the outstanding stock, or 4,775,571 shares.

#### Noodles (NDLS)

Mill Road Capital Management sold 1,858,387 shares at \$8.80 apiece on Nov. 28, trimming its stake in the casual dining chain by nearly a third, to 10.9% of the outstanding stock, equal to 4,804,037 shares. No reason was given for the sale.

#### International Seaways (INSW)

Paulson & Co. sold 175,000 shares on Nov. 28 and Nov. 29, reducing its holding of the ocean vessel operator to 2,909,100 shares. The sales, executed at prices ranging from \$18.78 to \$19.63, reduced Paulson's ownership of the firm to 10% of the outstanding shares.

#### The Activist Spotlight

##### MDC Partners (ticker: MDCA)

Business: marketing, communications, and strategic consulting

Stock Market Value: \$152 million (\$2.64/share)

What's Happening: FrontFour Capital is considering calling a special meeting of shareholders to change the board's composition.

Key Numbers:

5.23%: common stock owned by Front Four

Page 20 of 41 © 2026 Factiva, Inc. 版权所有。

(79.91%), (89.19%), (89.78%): MDC's one-, three- and five-year returns, versus 4.44%, 31.27%, and 51.82% for the **S&P500**

Behind the Scenes: FrontFour is an experienced activist investor, particularly in Canada. MDC has built a strong collection of assets through acquisitions that operate relatively independently. But it has significantly underperformed the market, and needs to shift from making acquisitions to integrating and operating its assets. The company has taken steps toward change with the resignation of its chairman/CEO, implementation of a cost-cutting plan, and announcement of a strategic review.

This isn't an uncommon situation—a company that is at a critical juncture and an investor that wants board representation to help steer it in the right direction. FrontFour wants a board seat to assist and advise in selecting the new CEO and navigating the strategic review process. MDC has responded by saying that it will continue discussions with FrontFour, but is focused on the strategic review and CEO search.

Canada has many shareholder-friendly laws, including universal proxies and allowing 5% of shareholders to call a special meeting, which usually is held within three to four months. It's very possible that this company agrees could be sold before the end of the CEO search process or the commencement of a special meeting to change the board.

Investors Report to the SEC

13Ds are filed with the Securities and Exchange Commission within 10 days of an entity's attaining a greater than 5% position in any class of a company's securities. Subsequent changes in holdings or intentions must be reported in amended filings. This material has been extracted from filings released by the SEC from November 29 through December 3. Source: InsiderScore.com

Increases in Holdings

DHX Media (DHXM)

Fine Capital Partners raised its position in the children's video content distributor to 36,532,550 shares. Its current 27.2% stake resulted from the acquisition of 2,026,300 shares from Nov. 21 to Nov. 29 at prices ranging from \$2.34 to \$2.61.

It was disclosed that a Fine Capital portfolio manager serves on the DHXM board, and that Fine Capital has been in discussions with the company and may extend the talks, but no specific plans or proposals have been revealed.

PDF Solutions (PDFS)

VIEX Capital increased its stake in the electronics and software firm to 2,414,057 shares, or 7.5% of the outstanding stock, including 730,000 shares underlying exercisable options. VIEX's increased position resulted from the acquisition of 317,761 shares at prices ranging from \$8.52 to \$9.01 from Nov. 26 through Nov. 30, excluding options transactions.

VIEX initially disclosed a 6% stake in mid-November.

Rowan Cos. (RDC)

Canyon Capital Advisors lifted its holding to 9,040,178 ordinary shares, or 7.1% of the outstanding stock, including 1,000,000 underlying exercisable options. The higher stake resulted from the purchase of 1,401,500 shares of the oil and gas driller at prices ranging from \$14.02 to \$14.78 from Nov. 20 through Nov. 28.

Canyon first revealed a 6% stake last month, and further argued that the proposed \$2.38 billion acquisition of Rowan by U.K.-based Ensco (ESV) wasn't fairly valued. Canyon said that it planned to discuss the merger with RDC, but no update was provided in the latest disclosure.

Decreases in Holdings

Citrix Systems (CTXS)

Elliott Management has lowered its position to 9,263,892 shares, or 6.9%, of the outstanding stock of the enterprise virtualization technology firm. The reduced stake resulted from the sale of 1,000,000 shares on Nov. 29 at \$111.15 each, executed for "year-end tax planning and portfolio management purposes."

Elliott added that it "intend[s] to remain a significant shareholder" in Citrix and that its representative, Jesse Cohn, will remain a CTXS director.

Genomic Health (GHDX)

Baker Brothers Advisors sold 458,169 shares of the cancer screen designer during the span from Nov. 29 and Dec. 3. The sales were executed at prices that ranged from \$76.62 to \$80.18. The transactions cut BakerBrothers' position to 12,380,267 shares, including 149,030 underlying options.

Baker Brothers also disclosed earlier sales last week that had totaled approximately 516,100 shares. Combined with the latest activity, that impacted its stake only slightly, since Baker Brothers still owns 34.1% of the company, down from a previously reported 35.4%.

#### Baxter International (BAX)

Third Point sold 8,000,000 shares of the medical device and equipment maker, reducing its holding to 28,008,125 shares. The sale was executed as a block trade on Dec. 3 at \$68.62 per share and trimmed Third Point's stake to 5.3%.

Third Point further stated that the sale was "a result of the portfolio concentration level" in BAX and that it doesn't "currently contemplate further sales for at least 90 days," barring unexpected events. Third Point concluded that it is "pleased with the performance of [Baxter's] CEO and is confident in his ability to continue to create value for shareholders."

#### Esterline Technologies (ESL)

First Pacific Advisors (142:Hong Kong) after disclosing the divestment of nearly 457,000 shares recently, followed with the sale of an additional 562,256 shares from Nov. 27 through Dec. 3. The sales were executed at per-share prices ranging from \$117.59 to \$121.60. They have reduced First Pacific's holding of the avionics manufacturer to 1,533,017 shares, equal to 5.2% of the outstanding stock.

No reason was given for the sales, and First Pacific reiterated that it might have future discussions with Esterline covering any number of business topics.

#### Tootsie Roll Industries (TR)

Gamco (GBL) revealed owning 1,685,672 shares of the candy maker, a lowered holding equal to 4.4% of the tradable stock. The smaller position resulted from the sale of 79,732 shares at \$28.66 to \$35.70 apiece and the purchase of 1,100 at \$34.90 to \$35.55 per share, all from Oct. 5 through Nov. 28.

#### Essendant (ESND)

Pzena Investment Mgmt (PZENA) lowered its stake in the wholesale distributor of office supplies to 3,902,688 shares, or 10.4% of the tradable stock. The reduced position resulted from the sale of 588,266 shares from Nov. 1 through Nov. 30, at \$12.66 to \$12.72 per share.

#### Skyline Champion Corp. (SKY)

Centerbridge Capital Partners sold 1,750,000 shares of the residential home construction firm through a secondary block trade offering that closed on Nov. 30. The offering was executed at \$21.80 per share and reduced Centerbridge's stake by slightly more than a quarter, to 8.4% of the outstanding stock, or 4,775,571 shares.

#### Noodles (NDLS)

Mill Road Capital Management sold 1,858,387 shares at \$8.80 apiece on Nov. 28, trimming its stake in the casual dining chain by nearly a third, to 10.9% of the outstanding stock, equal to 4,804,037 shares. No reason was given for the sale.

#### International Seaways (INSW)

Paulson & Co. sold 175,000 shares on Nov. 28 and Nov. 29, reducing its holding of the ocean vessel operator to 2,909,100 shares. The sales, executed at prices ranging from \$18.78 to \$19.63, reduced Paulson's ownership of the firm to 10% of the outstanding shares.

With Wednesday a holiday, investors sold equities today to mitigate the risks of further declines stemming from a slowing economy and a potential failure in U.S.-China trade talks

There was capitulation in the markets Tuesday.

After what was initially perceived to be a substantial step forward between the U.S. and China in trade talks over the weekend, the stock market, reflected by the S&P 500 Index (SPX, US), enjoyed a big increase Monday. Those gains have now been wiped out. The S&P 500 tumbled 3.2% Tuesday, the Dow Jones Industrial Average (DJIA, US) dropped 3.10%, and the Nasdaq Composite Index (COMP, US) plunged 3.80%.

There were many factors that caused the reversal. From political problems in Europe to a deadline related to nuclear arms and Russia, a range of economic and political variables caused this capitulatory environment. And on top of it all, investors are seriously questioning President Trump's ability — or willingness — to get a deal done with China in the 90-day window that resulted from the G-20 meeting in Argentina.

Read:[Smart ways to buy bonds and stabilize your portfolio](#)

The icing on the cake was economic concerns. Slowing economic growth is something that investors don't like to see. This accumulation of negative variables, without positive influences, started the negative trajectory for Tuesday's trading session. As such, weakness should be expected in normal environments, but this is not a normal environment.

The stock market will be closed Wednesday to honor the late President George H.W. Bush, and investors know they will not have an opportunity to act Wednesday if these existing negative influences get worse. Yes, the variables Tuesday raised many concerns, but the capitulatory environment that existed was influenced more by the realization that nothing could be done to manage risk Wednesday as a result. Some investors sold without careful consideration.

On Tuesday, at times, it seemed as if investors were just throwing in the towel, and that is exactly what capitulatory environments look like. This is not a signal of a market bottom, like other capitulatory environments might suggest, but it does exemplify the risk that exists on Wall Street now that central-bank liquidity has dried up and is no longer supporting global assets.

The declines Tuesday were not unwarranted, but the unusual magnitude of the drop was a direct result of the upcoming holiday. Had Wednesday not been a holiday, and an unusual one to boot, the markets would not likely be down as much as they were on the heels of the existing news.

With that understood, investors should be prepared for a material snap-back in ProShares Ultra QQQ (QLD, US), ProShares Ultra **S&P500** (SSO, US), ProShares Ultra Dow30 (DDM, US) and ProShares Ultra Russell2000 (UWM, US) as soon as the capitulatory environment is digested.
